

DOIT MASTER AGREEMENT NUMBER:

B-04-002

DOIT APPROVAL DATE:

12/29/09

VENDOR NAME: Nextel Sprint Communications**VENDOR FEIN:** 52-1653244**SERVICE/PRODUCT NAME:** Wireless Service and Equipment: Service**SERVICE/PRODUCT DESCRIPTION:**

Sprint Nextel's integrated data and voice network provides customers with one single, dynamic integrated digital nationwide footprint; 100% digital CDMA and IDEN cellular voice communications; digital "always on", IP-based packet data service; and no roaming charges within the U.S. on most plans. Sprint Nextel's 4-in-1 wireless communication solution provides digital cellular, Nextel Direct Connect, Specialized Messaging Services, and wireless circuit and packet data.

Nextel Direct ConnectSM is the 2-way digital walkie-talkie feature that lets you get right through *instantly* without the hassles of voice mail, phone tag or time delays. Already built into every Sprint Nextel IDEN phone, Nextel Direct Connect lets you instantly contact. It provides instant communication via a private or group "Walkie-talkie"-like call. Nextel Direct Connect improves productivity and reduces "telephone tag", as Nextel Direct Connect calls do not terminate in a voice mailbox. VibraCall alert provides a discreet way to receive your Nextel Direct Connect calls.

Group ConnectTM (now called **Talkgroup**) allows customers to instantly communicate with up to 25 people at once with the push of a button, using Nextel Direct Connect service. It is a great feature for team members who depend on timely, consistent communication. Instead of making multiple calls, customers can reach more people at once -- get answers and get back to work.

Sprint Nextel's Connection Cards allow customers to wirelessly access their email, corporate network, and the Internet at high speeds on the Sprint Nextel EV-DO Network and EVDO Rev-A Network.

Sprint Nextel Flat Rate Business Plan**Overview**

The National Flat Rate Plan consists of a monthly recurring charge and a flat per minute rate. The per minute rate is applicable to all Voice Minutes Used, including Anytime Minutes, Nights & Weekends, Nationwide Long Distance, Sprint Mobile-to-Mobile Calling and Nextel Direct Connect. There are no included plan minutes. Shared minutes are not available and all plans include voice mail and caller ID. Additional Nextel Direct Connect® features, including, but not limited to, Talkgroup, Group Connect and International Direct Connect, are available with certain devices and are subject to an additional charge. Customers may not combine certain voice plan add-ons, including Sprint Mobile-to-Mobile, Shared Minutes, and Unlimited Nights & Weekends (nights starting at 9pm), with this plan.

Sprint Nextel Business Essentials**Overview**

Sprint Nextel Business Essentials® Plan is our core wireless voice offering that provides buckets of minutes that can be shared across users on an account with the added benefit of Unlimited Sprint Nextel Mobile to Mobile Calling (CDMA) or Unlimited Nationwide Walkie-Talkie (iDEN). Cellular minutes share across all Sprint Nextel Business Essentials® plan tiers within an account on the same network. With the Sprint Nextel Mobile to Mobile Calling option, your customers receive unlimited minutes for calls between Sprint Nextel Phones and most Nextel Phones. This is a valuable option for employees who often call other Sprint Nextel Phones and/or Nextel Phones, as Anytime Minutes are saved for other call types.

Along with a group of Anytime Minutes, subscribers also receive extended calling time with:

- Unlimited Nights & Weekends
- Unlimited Nationwide Walkie-Talkie (iDEN) or Mobile to Mobile (CDMA) Minutes
- Nationwide Long Distance

- Voicemail and Caller ID
- Shared Cellular Minutes

Ability to "Add-A-Phone". The Add-A-Phone has no minutes allowance of its own but will share the minutes of the other lines on the account.

Program Details

- Included Minutes & Sharing
- Anytime cellular minutes share across all rate tiers on the same network.
- Additional Add-a-Phone lines are available for low cost.
- Customers CANNOT purchase the Add-a-Phone as a stand-alone plan. A customer must have at least one Sprint Nextel Business Essentials® core plan. There is no limit to the number of add-on plans that may be added to an account.
- Unlimited Nights & Weekends are included.
- Night and Weekend Minutes can be used from Monday through Thursday 9pm to 7am and Friday 9 pm to Monday 7am.
- Unlimited Mobile to Mobile Minutes
- Long Distance is included.
- Caller ID and Voicemail are included.
- Roaming is included on CDMA Network. Roaming not available with single-band phones or for customer located outside the Nationwide Sprint Nextel Network.
- Roaming usage may not exceed 50% of total usage per month or allocated roaming minutes in applicable markets. Roaming minutes cannot be shared.
- International roaming rates will vary and may be billed separately.

Sprint Nextel Business Essentials® Plans:

[400 Anytime Minutes](#)

[1000 Anytime Minutes](#)

[1400 Anytime Minutes](#)

[2000 Anytime Minutes](#)

[2800 Anytime Minutes](#)

[4500 Anytime Minutes](#)

[Add a Phone \(0 Anytime Minutes\)](#)

Definitions:

Add A Phone: Great for small businesses, Sprint Nextel Add-a-Phone lets you share plan minutes on one account.

Anytime Minutes: Anytime Minutes are included in all Sprint Nextel Service Plans. On most plans, Anytime Minutes are used from 7 a.m. to 9 p.m., Monday through Friday. If your plan does not include Night & Weekend Minutes, then your Anytime Minutes are also used from 9 p.m. Friday through 7 a.m. Monday. Anytime Minutes are also shared between all phones on a Sprint Nextel Add-a-Phone® account.

Unlimited N&W Minutes (Starting at 9 PM): **Night & Weekend Minutes are included in most Sprint Nextel Service Plans.** On most plans, Night & Weekend Minutes are used from **9 p.m. to 7 a.m.**, Monday through Friday and all day on Saturday and Sunday. If your Sprint Nextel Service Plan does not include Night & Weekend Minutes, then minutes used during this time would count towards your Anytime Minutes. Night &

Weekend Minutes are also shared between all phones on a Sprint Nextel Add-a-Phone account.

Unlimited Mobile to Mobile Minutes: With unlimited Mobile to Mobile Calling, you can make or receive unlimited nationwide calls between every Sprint Nextel Phone (Sprint's CDMA phones and Nextel's IDEN Phones) while on the Sprint Nextel Nationwide PCS Network. Unlimited Mobile to Mobile Calling minutes do not take away from your anytime minutes. As long as you call another Sprint Nextel Phone, you will not be charged minutes if unlimited Mobile to Mobile Calling is part of your service plan.

Sprint Nextel CDMA EV-DO and EVDO Rev-A Connection Card Plan

Sprint Nextel's Connection Cards allow customers to wirelessly access their email, corporate Network and the Internet at high speeds.

CDMA EVDO CONNECTION CARDS DATA PLAN:

Unlimited Data Plan

- Unlimited data usage
- Can be used for any type of Sprint Nextel card (1xRTT, EV-DO, EVDO Rev-A)

Text Messaging

Send and receive SMS text messages and/or SMS Voice messages instantly across the room or across the country. Now also send and receive messages to/from over 70 countries from the US with International Text Messaging.

Pay-As-You-Go Messaging

- Pay-as-you-go basic messaging service, send and receive text, picture and audio messages from your Sprint Nextel phone, any email address or through Sprint Nextel.com. Cost per message.

Text Messaging 300 Plan

- 300 Text Messages and pay-as-you-go image/audio messages.
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.

Unlimited Text Messaging Plan

- Unlimited text messaging and pay-as-you-go audio/image messaging. .
- Alerts are charged per received message. One way messaging alerts are one way messages that can only be received by the customer, and do not require a text messaging service subscription.

BLACKBERRY PLAN:

Plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Nextel Direct Connect. All Nextel Direct Connect Minutes at an additional fee per minute.
- Unlimited BlackBerry email and Web

Unlimited Mobile to Mobile can be added for additional cost. This will enable unlimited cellular calls between Sprint Nextel iDEN phones, and between Sprint Nextel iDEN and Sprint Nextel phones.

WORLDWIDE BLACKBERRY EMAIL AND WEB PLAN: (Voice Plan Require)

Plan includes the following:

- Zero Cellular Minutes. All Cellular use at an additional fee per minute.
- Zero Nextel Direct Connect. All Nextel Direct Connect Minutes at an additional fee per minute.
- Unlimited GSM/GPRS email and web access in all GPRS countries

- Voice, Long Distance, Off Network Roaming, Off-Network Long Distance, billed at an additional cost.
- Includes Unlimited MB Web access, wireless e-mail.

Not combinable with Data Packs. Phone as Modem not included.

WIRELESS PRIORITY SERVICE (WPS) allows authorized National Security and Emergency Preparedness (NS/EP) personnel to make cellular calls during an emergency when channels may be congested. WPS is the interconnect complement to Sprint Nextel's own Priority Connect service.

WPS is overseen by the National Communications System a division of the Department of Homeland Security. WPS was developed to meet a directive from the White House. NCS executes the program on behalf of the Executive Office of the President. Only individuals in NS/EP positions are authorized to use of WPS. Five categories have been established in order to identify critical NS/EP leadership functions and determine eligibility. Users must apply for and be approved by the National Communication System for Wireless Priority Service. Customers must apply directly to the NCS for Wireless Priority Service and be approved in order for Sprint Nextel to be able to add this service to a number. WPS is for leadership positions only and is not intended for use by all emergency service personnel. Priority Levels are:

- A. Executive Leadership and Policy Makers
- B. Disaster Response/Military Command and Control
- C. Public Health, Safety and Law Enforcement Command
- D. Public Services/Utilities and Public Welfare
- E. Disaster Recovery

Customer must be a Sprint Nextel subscriber. Customer must request WPS service at <http://wps.ncs.gov> or call 1.866.NCS.CALL to apply. NCS will inform Sprint Nextel of those subscribers that are approved for WPS and at what Priority Level. Sprint Nextel cannot add, delete or modify a WPS subscription without NCS consent. Customers may access additional information at <http://wps.ncs.gov/>.

WPS is invoked by dialing *272 prior to the destination number. Wireless Priority Service has a one-time activation fee, a monthly charge, a per minute charge, and additional long distance charges if the customer's rate plan does not include long distance. Use of Wireless Priority Service does not draw down upon cellular minutes in a voice rate plan. Wireless Priority Service does not work outside of the United States.

Sprint Nextel 411 – provides phone numbers, addresses, and directions.

Standard Static IP Address (CDMA) - Allows Customer to purchase a Static IP address to attach to their device.

Additional Services Sprint Reference Number BSG0906-0262

SPRINT DATA LINK

A. Sprint Mobile Broadband Device (Connection Cards, Embedded Mobile Laptops and USB Modems) with Sprint Data Link

- (1) **Simple Data Link connectivity.** This plan is for Data Link customers with simple Data Link connectivity via IPVPN, MPLS or Sprint Link Frame Relay (SLFR). Data Services in Bytes are unlimited.
- (2) **Sprint Data Link with SHRA/NAT.** The premium version of the Data Link Plan for Sprint Mobile Broadband devices. This plan is for Data Link customers utilizing one or both of the Sprint value-added services listed below. Sprint Hosted RADIUS Authentication (SHRA) provides customers with a hosted username and password management solution for their wireless users/devices. Network Address Translation (NAT) is a technique network traffic through a router than involves re-writing the source and/or destination. Data Services in Bytes are unlimited. Megabyte and Gigabyte are defined as follows:

1,024 kilobytes = 1 megabyte
1,024 megabytes = 1 gigabyte
5,120 megabytes = 5 gigabytes

B. Sprint Wireless Data Access Plans for Business with Sprint Data Link. Wireless Data Access plans provide certified OEM (Original Equipment Manufacturer) data devices or certified telemetry devices that contain an embedded CDMA module access to the Sprint Data Link network. Customers with only Nextel Products and Services are not eligible for Sprint Wireless Data Access Plans. In Sprint's sole discretion, Sprint Wireless Data Access Plans may not be purchased in conjunction with certain other Sprint promotions, discounts, or contests.

(1) **Data Access plans for Business with Data Link.** Data Access Plans for Business with Data link is for customers with simple Data Link connectivity via IPVPN, MPLS, or Sprint Link Frame Relay (SLFR). Unlimited Data Services in Megabytes or Gigabytes are included.

(2) **Data Access Plans for Business with Data Link with SHRA/NAT.** The premium versions of the Data Access Plans for Business with Data Link. These plans are for Data Link customers utilizing one or both of the Sprint value-added services listed below. Sprint Hosted Radius Authentication (SHRA) provides customers with a hosted username and password management solution for their wireless users/devices. Network Access Translation (NAT) is a technique of translating network traffic through a router that involves re-writing the source and/or destination. Megabyte and Gigabyte are defined as follows:

1,024 kilobytes = 1 megabyte
1,024 megabytes = 1 gigabyte
5,120 megabytes = 5 gigabytes

i. Customer Premise Equipment, installation, Managed Network Services and maintenance support are not included.

C. IP Address. Dynamic IP address assignments are the default method currently in use by the Data Link network.

(1) Data Link can also support customer specific dynamic and static IP address assignments that comply with "RFC 1918 – Address Allocation for Private Internets."

a. Supported IP Address Range – 10.X.X.X and 192.168.X.X.

b. Unsupported IP Address Range – 172.16.X

D. Implementation Options. Customer must select one of the following implementation options:

(1) **Option 1: Sprint Data Link via IP VPN**

(2) **Option 2: Sprint Data Link via SprintLink Frame Relay**

(3) **Option 3: Sprint Data Link via MPLS VPN**

SPRINT LINK FRAME RELAY (Available Only to Support Customer's Data Link Deployment)

A. The SprintLink Frame Relay service is a frame relay offering provided over Sprint's native IP backbone. The service is enabled via the Layer 2 Tunneling Protocol version 3 (L2TPv3) allowing layer 2 traffic to be encapsulated and securely tunneled over the SprintLink IP network. Both dedicated local access and Customer Premise Equipment ("CPE") are required for SprintLink Frame Relay. Unless specifically stated otherwise in this SprintLink Frame Relay pricing section, dedicated local access, and CPE are not included in any of the rates. The term "Net" as used in this pricing section means that the associated charge is after any applicable discounts have been applied, but before taxes, surcharges, and other charges otherwise outlined in the Agreement have been applied.

B. Domestic Bundled Port and Access. Sprint will charge Customer a fixed Net Monthly Recurring Charge (MRC) from the product schedule pricing page for each Domestic SprintLink Frame Relay "Site". For purposes of this paragraph, a "Site" is: one local access line (including ACF and COC MRCs), and one Domestic SprintLink Frame Relay Port.

(1) Sprint will waive 100% of the installation and monthly recurring charges associated with Access Coordination Fee (ACF) and Central Office Connection (COC).

(2) Applicable NPA/NXX's:

SLFR Domestic Port Bundle Description	NPA / NXX
256k/T1 Access	860-594

T1/T1 Access	860-263
T1/T1 Access	617-494

MPLS VPN (Available Only To Support Customer's Data Link Deployment)

A. Sprint's Global MPLS VPN offering uses the Sprint IP/MPLS backbone as the transport mechanism. The MPLS protocol is utilized to interconnect the customer network and maintain data privacy. Both dedicated local access and Customer Premise Equipment ("CPE") are required for Global MPLS VPN. Unless specifically stated otherwise in this Sprint Global MPLS VPN pricing section, dedicated local access and CPE are not included in any of the rates. The term "Net" as used in this pricing section means that the associated charge is after any applicable discounts have been applied, but before taxes, surcharges, and other charges otherwise outlined in the Agreement have been applied.

B. Domestic Bundled Port and Access. Sprint will charge Customer a fixed Net MRC in the applicable amounts from the product schedule pricing page for each Domestic Sprint Global MPLS VPN "Site". For purposes of this paragraph, a "Site" is: one local access line (including ACF and COC MRCs), and one Domestic Sprint Global MPLS VPN Port.

- (1) Sprint will waive 100% of the installation and monthly recurring charges associated with Access Coordination Fee (ACF) and Central Office Connection (COC).
- (2) Applicable NPA/ NXX's:

SLFR Domestic Port Bundle Description	NPA / NXX
256k/T1 Access	860-594
T1/T1 Access	860-263
T1/T1 Access	617-494

SprintLink Frame Relay and Sprint Global MPLS VPN services are the only implementation options for Sprint PCS Data Link available under this Agreement and will only be sold in conjunction with a Sprint PCS Data Link solution. State agency customer will provide Tier 1 support for its users of Sprint PCS Data Link.

Customer Premise Equipment ("CPE") is required for MPLS VPN and SprintLink Frame Relay Service. Customer will provide its own CPE.

SPRINT WORLDWIDE

Call any country from any country while outside the United States

- ♦ Same phone number – make and receive calls and access your voicemail with a phone number that doesn't change when you travel.
- ♦ Coverage – get voice and data connections through Sprint's roaming partners around the world.
- ♦ Travel-ready Devices – Sprint offers worldwide devices that work both on the Nationwide Sprint Network and globally on the CDMA, iDEN and GSM networks.

Sprint AIRAVE™

Sprint AIRAVE™ provides enhanced wireless service, even if there is no coverage, for to 5,000 square feet. Sprint AIRAVE™ works with any Sprint phone — up to three users at the same time. Does not work with plans or services operating only on the Nextel Nationwide Network. Installs with existing broadband Internet access, such as DSL, cable or T1. Automatically transfers calls to the Sprint Nationwide Network once outside the 5,000 square foot area provided there is sufficient signal from the Sprint Network beyond the range of the AIRAVE Base Station. Limit access to the AIRAVE by creating a list of up to 50 approved Sprint phone numbers.

What Is Needed:

Active Sprint phone(s), Sprint voice plan, Broadband Internet access, such as DSL, cable or T1. Available Ethernet port — either on your modem or via a router — to connect AIRAVE to your broadband data service. Available power outlet.

BLACKBERRY TECHNICAL SUPPORT SERVICES

SMB ADVANTAGE SUPPORT

Included Service Features:

Coverage and Access:

- 24 x 7 Telephone with an average 90 seconds response.
- Blackberry Expert Support Center (BESC) (2-Hour Response on Electronic Incidents)

Problem Management

Blackberry Software Service Packs and Hotfixes

Blackberry BES Software Upgrades

Blackberry Infrastructure Status and Notifications

- View Status and Event details in BESC
- Web Based

Blackberry Training 3, 4, and Blackberry Certification
